

Adelle Sans

A flexible and personable
companion sans to Adelle.

DESIGNED BY

Veronika Burian
José Scaglione

YEAR

2012

Adelle Sans, José Scaglione and Veronika Burian's sans serif counterpart to the award-winning Adelle type family, provides a more clean and spirited take on the traditional grotesque sans.

As is typical with TypeTogether typefaces, the most demanding editorial design problems were taken into consideration when creating Adelle Sans. The combination of lively character and unobtrusive appearance inherent to grotesque sans serifs make Adelle Sans an utterly versatile tool for every imaginable situation. Whether for branding, signage, or advertising, the keyword behind Adelle Sans' use is flexibility.

Adelle Sans is available in 15 weights with matching italics, and includes seven roman styles with their matching italics in a condensed width to save space and keep legibility high.

Each of these 30 styles is a perfect counterpart in terms of weight and vertical proportions to its slab

serif equivalent, Adelle, and the condensed widths are adept at setting short texts while retaining all the personality expected from the Adelle family.

This ensures an harmonious fit between both type families in the same block of text, and a pleasing change of texture when used at similar point sizes.

The 1,145 character set includes typographic niceties, small caps, several sets of figures, and support for over 90 languages. It also includes a set of 35 icons specially designed for electronic publications. The complete Adelle Sans family, along with our entire catalogue, has been optimised for today's varied screen uses.

Be sure to check out the companion for Adelle Sans, Adelle, for a versatile and authoritative slab serif with no shortage of personality.

Język służy do przedstawiania rzeczywistości dotyczącej przedmiotów, czynności czy abstrakcyjnych pojęć za pomocą znaków. Zbiór znaków w języku jest otwarty. Wynika to z faktu, że znakiem językowym jest każdy tekst, każda sformułowana wypowiedź, posiadająca znaczenie. Jednostka posługująca się językiem może więc za pomocą jego systemu tworzyć nieskończoną liczbę nowych znaków, także takich, z którymi nigdy się wcześniej nie zetknęła.

Kieli on järjestelmä, jossa ihminen ilmaisee ajatuksensa kielellisillä merkeillä, abstraktioilla. Näitä merkkejä nimitetään kielellisiksi ilmauksiksi. Puhutuissa kielissä kuuluvia (auditiivisia) merkkejä tuotetaan puhe-elimillä. Kirjoitetussa kielessä kielelliset ilmaukset on tehty silmin nähtäviksi eli luettaviksi. Viitotuissa kielissä kielelliset ilmaukset ovat visuaalisia, eivätkä auditiivisia. Eri kieliä tutkii kielitiede. Kognitiiviede tutkii kieltä hieman erilaisesta

THE DESIGNERS

Veronika Burian studied Industrial Design in Munich and worked in that capacity in Vienna and Milan over a few years. Discovering her true passion for type, she graduated in 2003 with distinction from the MA in Typeface Design course in Reading, UK. Veronika then worked as a type designer at DaltonMaag in London for a few years, spent some time in Boulder, USA, and then her hometown, Prague, and is now enjoying life in sunny Cataluña, Spain.

Veronika is a type designer and the co-founder of the independent type foundry TypeTogether with José Scaglione, publishing award-winning typefaces and collaborating on tailored typefaces for a variety of clients. She is also involved with Alphabetes.org, a showcase for work and research on lettering, typography, and type design by women, and she continues to give lectures and workshops at international conferences and universities.

José Scaglione is a graphic designer, typeface designer, and co-founder of the independent type foundry TypeTogether with Veronika Burian, where they have published numerous award-winning type families. He teaches typography at the University of Buenos Aires, Argentina, and is frequently invited to lecture about typography and to lead workshops on typeface design at international conferences and academic institutions. José co-authored the book *Cómo Crear Tipografías: Del Boceto a la Pantalla*, and collaborated with Jorge de Buen Unna on his book *Introducción al Estudio de la Tipografía*.

In 2012 José acted as chairman of the Letter.2 type design competition and conference, and he was appointed president of the Association Typographique Internationale (ATypI) from 2013 to 2017.

FAMILY UPGRADES

Buy a single weight (or more) now and get reimbursed if you buy the entire font bundle at a later time. This is a great way to explore a new typeface without full commitment. To take advantage of the upgrade, please email info@type-together.com.

CUSTOM WORK

We offer custom font solutions tailored to your needs. This includes developing new typefaces from scratch, modifying existing typefaces, extending language support, and creating logotypes. Please contact us for details at info@type-together.com.

LICENSING

Our complete font catalogue, along with the presented type family here, are available for print, self-hosted web applications, and app embedding from TypeTogether's online store. For other types of licences and more information, please contact us at info@type-together.com.

TESTING OUR FONTS

TypeTogether actively seeks ongoing dialogue with all type users and therefore offers free temporary licences to test any of our typefaces. The test fonts are fully functional and include the entire character set and OpenType features. To request test fonts, please contact us at info@type-together.com.

EDUCATIONAL & CHARITY DISCOUNT

TypeTogether offers a 25% discount on all typeface purchases for students and those in education (schools, departments, etc.). This discount also extends to NGOs and charities in general. Please contact us for details at info@type-together.com.

For further information, samples, and ordering, please visit www.type-together.com.
